Education

08/2025 – MS Economic Research, [CERGE-EI](#), Prague, Czech Republic

- Advanced Microeconomics, Statistics and Macroeconomics

10/2019–2/2022 MS Computer Science, Faculty of Electrical Engineering and Computing, Zagreb, Croatia

- Thesis topic: [„Semantic segmentation of buildings in satellite imagery”](#)
- [Recommendation letter](#) from prof. dr. sc. Siniša Šegvić
- Additional activities: Football sports section; Boxing; English language Courses; Communication skills; Programming Language R

10/2016–7/2019 BS Computer Science, [Faculty of Electrical Engineering and Computing](#), Zagreb, Croatia

- Thesis topic: [„Convolutional Models for Person Localization in Sports Broadcasts”](#)
- Additional activities: Haskell, Java Programming Language, Linux, Arduino and Raspberry PI workshops, Discrete & Continuous Mathematics; CubeSat Satellite Section

Skills and Relevant Coursework

- Technologies and Languages:** Java, Python, SQL || R, JavaScript, C, C++, Linux || PyTorch, Tensorflow, Excel, Docker
- Skills:** Writing and Communication; System Modelling; Presentation; Engineering mindset; Research
- Relevant Coursework:** Algorithms and data structures; Machine learning; Text analysis and retrieval; Deep learning; Financial mathematics; Stochastic processes; Fuzzy, evolutionary and neuro computing; Discrete & Continuous Mathematics; Software Design; Statistical Data Analysis; Operational Research

Industry Experience

01/2024-07/2025, Stipic Construction company, Croatia, Zagreb

- Description:** URL management, Data extracting and analysis, Android app development, Flask website development, Google Cloud, data science projects, Webscraping, big tech job miner, literature review, OSINT and analytics, networking
- Technology:** Python, Jupyter Notebook, Databases, Linux, Android, Spreadsheet, Git, Google Cloud & Digital Ocean management

1/2023-8/2023 [Traineeship in Directorate General Market Operations](#), European Central Bank, Frankfurt at Main, Germany

- Description:** Market Operation Analysis / Market Operations Framework Section
- Technology:** Python, Jupyter Notebook, Oracle Database, Tableau, Excel, Bloomberg, Dagster framework
- Highlighted Skills:** Essentials of Monetary policy and Economy, Presentation skills, Communication skills, Data analysis, Research, Technology.

3/2022-9/2022 Software Engineer, [Amphinicy Technologies](#), Zagreb, Croatia

- Description:** Software engineer for the satellite industry products [1].
- Technology:** Java EE, Docker-compose, IntelliJ, Git
- Highlighted Skills:** Software design and implementation, Managing large code base, technical documentation
Written and oral communication, Learning domain specifics

3/2021-9/2021 ML engineer, [PhishAR](#), Zagreb, Croatia

- Description:** Research and development of end-to-end ML pipeline for computer vision tasks.
- Technology:** Python, Tensorflow, Git, Docker, Google Cloud Platform, Amazon Mechanical Turk
- Highlighted Skills:** Project planning, Independence, communication

7/2019-9/2019 Student internship in data science/engineering, [CROZ](#), Zagreb, Croatia

- Description:** Design algorithm for rearranging warehouse layout to increase its throughput.
- Technology:** Python, Apache Spark, Oracle database, SQL
- Highlighted Skills:** Project presentation, Data analysis and engineering, knowledge extraction

Academy Experience

- 2020 Researcher, Text Analysis and Retrieval Course, [DSAA 2020 conference](#)
 - Name: „Are you Human? Detecting Bots on Twitter Using Bert” ([IEEE xplore](#) and [ResearchGate](#))
 - Model for text classification using BERT, feature exploration, exploratory data analysis of tweets
 - Presenting work on the online conference [2].
- 2020 University days event, 2020 [3] : *Presenting paper to future students and answering student questions.*
- 2019 Research assistant, [FERsat project](#). *The aim of the project was monitoring of light pollution from space.*
